

# Bringing R to Enterprise

from the Enterprise (adopter) perspective

# What is enterprise readiness?\*

Maintenable

Controllable

Scalable

Efficient

Safe

\*This is my subjective definition.

# Why should I consider R?

Time to  
market

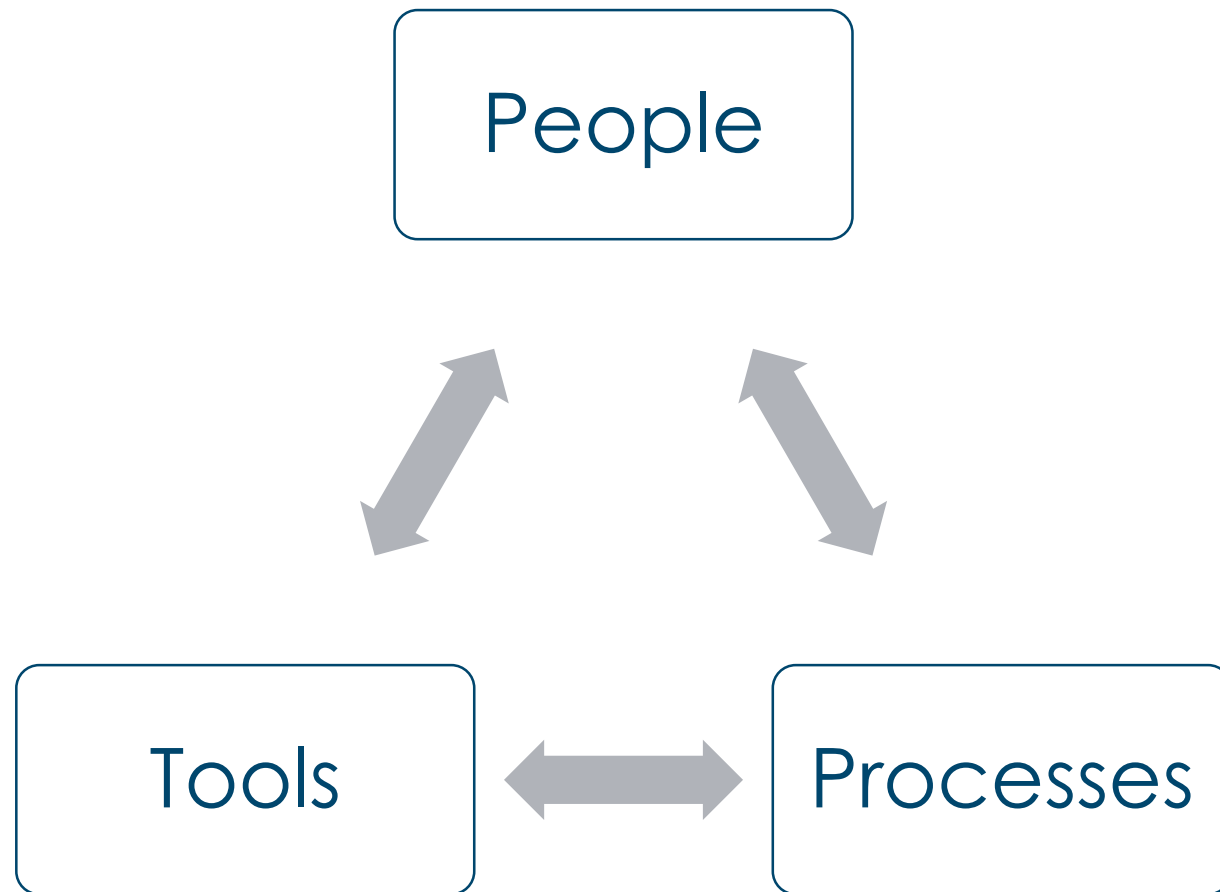

Flexibility

State-of-the  
art  
algorithms

People

License  
footprint

# What should I do to successfully bring R to my organisation?

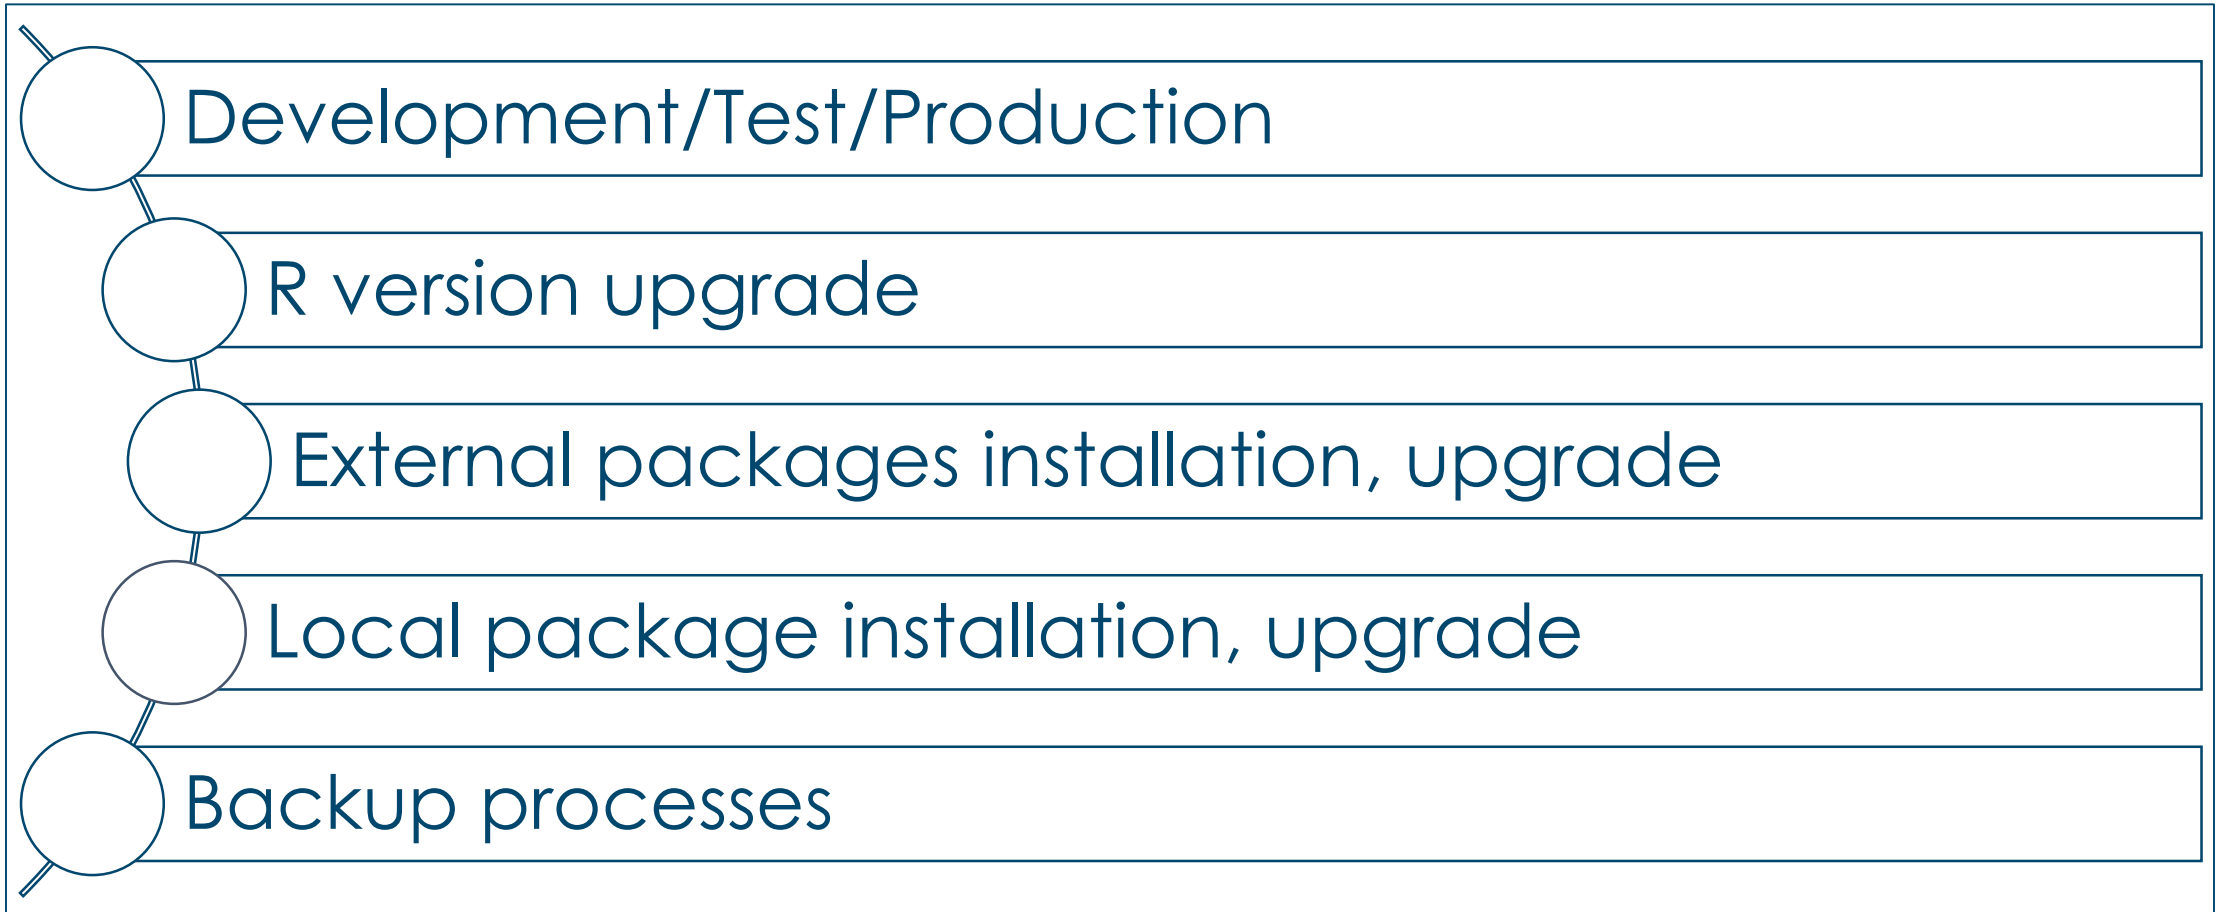

Evolution  
not  
**Revolution!**
